

IMPORTANT: Prerequisites for WhatsApp Business API Setup

Make sure that you have all these in place for a smooth setup:

1. An active Meta Business Manager (formerly known as **Facebook Business Manager**) account with admin access. You can give admin access on
2. An HTTPS live website with your business name mentioned there.
3. Business Verification Documents Required.
 - A. SECP Certificate
 - B. NTN Certificate
 - C. Utility bill
 - D. Legal business name
 - E. Website URL (**Privacy Policy Page must be included**)
 - F. **Business email address** (preferably same domain as website)
 - G. Business address

4. A phone number that doesn't have an active WhatsApp account before. (Preferred SIM: Zong)

Note: Ensure you have access to the phone number you want to integrate to receive a One-Time Password (OTP) via SMS or phone call.

5. VISA or MASTERCARD credit/debit card with international payments enabled.
